

## AGY Holding Corp. Announces 2009 Second Quarter Consolidated Results and Earnings Conference Call

**AIKEN, SOUTH CAROLINA - (August 18, 2009)** – AGY Holding Corp. (“AGY” or the “Company”) reports its 2009 second quarter results, including the impact of the recent acquisition of 70% of Main Union Industrial Ltd (“AGY Shanghai”), which occurred on June 10, 2009. The Company filed a Form 12b-25 with the Securities and Exchange Commission to obtain a five-day extension for the filing of its quarterly report on Form 10-Q in order to complete the consolidated financial statements, which includes the preliminary determination of the impact of the acquisition. The Company anticipates filing the Form 10-Q on August 19, 2009.

See Appendix D where EBITDA and Adjusted EBITDA are defined and reconciled from net income (loss) determined under GAAP.

- (1) Management uses EBITDA and Adjusted EBITDA, which are non-GAAP financial measures, to measure operating performance.
- (2) Adjusted EBITDA attributable to AGY Holding Corp. excludes the portion of Adjusted EBITDA attributable to the noncontrolling interest.
- (3) Adjusted EBITDA margin attributable to AGY Holding Corp. is calculated by dividing Adjusted EBITDA attributable to AGY Holding Corp. by net sales.

Net sales in the second quarter of 2009 were \$32.8 million, which includes \$1.4 million of revenue generated by AGY Shanghai following the recent acquisition. Not taking into account the impact of the acquisition, revenue in the second quarter decreased by \$32.7 million, or 50.9%, when compared to the second quarter of 2008. The global economic downturn, lower defense revenue and the de-stocking initiatives by many of our customers were the primary drivers of this decrease. Revenue generated by AGY Shanghai was favorably impacted by improved demand in the Asian electronics markets. The reported revenue for AGY Shanghai was for the period from the acquisition closing date of June 10, 2009 through June 30, 2009. Net sales, including the \$1.4 million of revenue associated with AGY Shanghai, were \$72.4 million for the first six months of 2009, representing a decrease of 41% over the comparable period of 2008.

The Company reported a loss from operations for the second quarter of 2009 of \$56.6 million, compared to income from operations of \$7.3 million reported in the second quarter of 2008. The

results for the second quarter of 2009 were significantly impacted by a non-cash impairment charge on goodwill of \$44.5 million. In addition to the non-cash impairment charge, results in the second quarter of 2009 were negatively impacted by soft demand across all market segments and an unfavorable product mix associated with lower defense shipments. Additionally, management's decision to reduce production capacity in order to improve liquidity in the second quarter of 2009 resulted in approximately \$7.6 million of expenses primarily associated with lower manufacturing efficiencies and the under-absorption of period costs. These expenses were partially offset by significant reductions in manufacturing and selling, general and administrative expenditures. AGY Shanghai reported a net loss of \$0.6 million for the period from June 10, 2009 to June 30, 2009. AGY reported a consolidated net loss of \$55.0 million and net income of \$0.8 million for the second quarters of 2009 and 2008, respectively. The net loss for the six months ended June 30, 2009 was \$57.7 million, compared to a net loss of \$0.6 million reported for the first six months of 2008.

Adjusted EBITDA is a measurement management uses to measure operating results. The Company had an Adjusted EBITDA loss attributable to AGY Holding Corp. of \$6.5 million during the second quarter of 2009, compared to Adjusted EBITDA of \$14.2 million for the comparable period of 2008. Results in the second quarter of 2009 were negatively impacted by lower volumes, an unfavorable product mix, and approximately \$7.6 million of expenses primarily associated with lower manufacturing efficiencies and the under-absorption of period costs. AGY Shanghai reported a \$0.1 million Adjusted EBITDA loss attributable to AGY Holding Corp. for the period from the acquisition closing date of June 10, 2009 through June 30, 2009. Adjusted EBITDA attributable to AGY Holding Corp. was \$2.3 million for the first six months of 2009, compared to the \$24.9 million reported for the comparable period of 2008.

The Company's consolidated cash balance as of June 30, 2009 was \$2.0 million. Operating activities used \$9.7 million during the first six months of 2009 compared to cash provided by operations of \$13.4 million during the comparable period of 2008. Lower net income negatively impacted the 2009 cash flows. Investing activities, excluding the net cash consideration paid for the acquisition of AGY Shanghai which was funded by certain of our stockholders through an additional investment in our parent company, used \$0.9 million compared to \$30.1 million for the first six months of 2008, when AGY purchased \$25.1 million of alloy metals related to manufacturing requirements associated with defense programs.

AGY is a leading global producer of fiberglass yarns and high-strength fiberglass reinforcements used in a variety of composites applications. AGY serves a diverse range of markets including aerospace, defense, electronics, construction and industrial. Headquartered in Aiken, South Carolina, AGY has a European office in Lyon, France and manufacturing facilities in the U.S. in Aiken, South Carolina and Huntingdon, Pennsylvania and a controlling interest in a manufacturing facility in Shanghai, China. ### AGY Holding Corp. and Subsidiaries

#### Reconciliation of Net Income to EBITDA and Adjusted EBITDA

(Dollars in thousands, unless otherwise noted)

The Company's management uses EBITDA and Adjusted EBITDA, which are non-GAAP financial measures, to measure operating performance. The most directly comparable financial measure determined under GAAP is net income (loss), the calculation of which for the three and six months ended June 30, 2009 and 2008 is set forth on Appendix B.

EBITDA and Adjusted EBITDA (which are defined below) are reconciled from net income (loss) determined under GAAP as follows (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008

	\$ (6,496)	\$ 14,213	\$ 2,305	\$ 24,880

EBITDA is defined as earnings before interest, taxes, depreciation and amortization. EBITDA is a non-GAAP financial measure used by management to measure operating performance. EBITDA is not a recognized term under GAAP and does not purport to be an alternative to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Management believes EBITDA is helpful in highlighting trends because EBITDA excludes the result of decisions that are outside the control of operating management and can differ significantly from company to company depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which companies operate and capital investments. In addition, management believes EBITDA provides more comparability between AGY's historical results and results that reflect purchase accounting and changes in AGY's capital structure. Management compensates for the limitations of using non-GAAP financial measures by using them to supplement GAAP results to provide a more complete understanding of the factors and trends affecting the business than GAAP results alone. Because not all companies use identical calculations, these presentations of EBITDA (as well as Adjusted EBITDA) may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is a non-GAAP financial measure which is defined as EBITDA further adjusted as permitted and calculated in the manner that consolidated cash flow is calculated under the indenture governing the Company's senior second lien notes, relative to certain provisions, including but not limited to, restricted payments and incurrence of additional indebtedness.
