

Y-200 – BC, C and D Filament Singles Yarns

BC, C and D filament yarns are used in further fabrications such as warping and weaving for glass fabrics and tapes.

General Product Specifications

Product Information

Product	ECBC1500		BC1500 DM	ECBC2250	ECBC3000	ECBC3750		ECC1200	
Glass Type	E		E	E	E	E		E	
Filament Diameter - micron	4	4	4	4	4	4	4	4.5	4.5
Binder	622	622	622	622	622	622	622	622	622
Bobbin	7636	7636	7636	7636	7636	7636	7636	7636	7636
Plies	1/0	1/0	1/0	1/0	1/0	1/0	1/0	1/0	1/0
Nominal Yield - yd/lb	149,925	149,925	149,925	224,888	299,850	375,000	375,000	119,940	119,940
Tex - g/1000 m	3.3	3.3	3.3	2.2	1.7	1.3	1.3	4.1	4.1

Storage, Shelf Life and Handling

Storage and Shelf Life:

AGY recommends storing the materials in accordance with appropriate safety considerations, away from exposure to the elements and at 65-80F (18-27C) and 50-70% humidity. If the materials are stored under these conditions, they are stable, non reactive and will not degrade or exhibit negative characteristics for at least 3 years from the date of manufacture. Unused, unopened product older than this is likely still in good condition, however careful evaluation is recommended. Prior to use, pallets should be placed in the production area and any plastic wrap removed for a minimum of 24 hours to allow the material to acclimate to the processing environment. Special care should be given to pallets being moved from a cold environment into a warm, humid area as condensation may occur and this additional moisture can negatively impact the runability of the material, however, once the material has acclimated, this will no longer be an issue.

For product traceability reasons, the pallet label should be recorded or retained.

Handling:

Fiberglass products process best if temperature and humidity are controlled, primarily because this will help to control the buildup of static electricity, fuzz and fly. AGY recommends that the material be run at 70 +/- 5 degrees F and 60 +/- 5% RH.

Test Methods and Certificates

A copy of test methods and or a certificate of conformity may be issued upon request.

Packages will be firmly and evenly wound on the bobbin, and free from defects in workmanship. AGY accepts no responsibility for damaged material that shows any signs of physical abuse.
